### Lane Assignments

We will use a basic position round type of pairing for the Fun Night, based on each team's **FINAL TEAM AVERAGE** (*not standings*) for the season.

**Step 1:** Team averages from [Week 26 results](#) will be used, because that is the last week our scores counted towards averages. Average are listed here in order by team number.

Team	Team Average
1 – Cece Ryders	494
2 – No Doubt	420
3 – Beer Nuts	448
4 - Comeback Kids	485
5 – Triple “S”	468
6 – Serious Business	461
7 – Alley Oops	465
8 – Newbies	333

**Step 2:** Then once those averages are sorted, we'll go down the list, pairing teams in order to assign lanes - as follows:

Lanes	Team	Team Average
33-34	Cece Rydersk vs Comeback Kids	494 485

35-36	Triple "S" vs Alley Oops	468 465
37-38	Serious Business vs Beer Nuts	461 448
