

Plymouth Bowling Club 2012 - 2013

Week 27 Doubles Tournament – March 27, 2013

[Event Rules](#)

[Doubles Pairs and Game-by-Game Scores](#)

[Doubles Results \(sorted by over-average total\)](#)

Event Rules

The goal is to bowl the *highest over-average scratch score* for each doubles pair.

Bowl with your regular team. Lane assignments are posted below.

Doubles pairs are assigned based on individual averages after bowling Week 26 (end of 2nd half, March 22). The bowler with the highest average will be paired with the bowler with the lowest average, the second-highest average will be paired with the second-lowest average, and so forth.

Note: Where averages are the same, I will use the "true average" tracked by our bowling software, which calculates averages with 2 decimal places. This resolves any apparent "ties".

Scores will count for your personal statistics but do not affect your team standing for the season.

[Absent bowlers are to use scratch averages, NOT the –10 pin blind score. \(By doing so, absent bowlers do not take pins away from their partner.\) However, absent bowlers do not receive prize money for their finish in the doubles tournament. \(Note: Our league specifications \(PDF file\) dictate these rules in point #9.\)](#)

There is NO additional fee to bowl in this event.

[Top scorers will win a nominal amount of prize money, which will be handed out on Banquet night. \(See the league prize fund for payouts.\)](#)

Lane Assignments

[Other than the roll-off teams, the remaining lanes are assigned based on teams' total points won for the season.](#)

Lanes/Teams	33-34	35-36	36-38	39-40
	Triple S Comeback Kids	CeCe Ryders No Doubt	Beer Nuts Serious Business	Alley Oops Newbies

Doubles Pairs (High-Low) and Game-by-Game Scores

Note: Colored rows are to help with readability across the table.
